

WE RIDE

**FUNCTIONAL APPAREL
2019**

Husqvarna
MOTORCYCLES

An aerial photograph of a dense forest, likely a pine forest, with a winding road or path visible on the right side. The trees are lush green, and the road is a light brown color. The sun is shining from the top left, creating a warm, golden light across the scene. The road curves through the forest, and the trees are densely packed on either side.

WHAT IS IT ABOUT THE
RIDE THAT MAKES US
DO IT OVER AND OVER
AGAIN? IS IT THE SOUND
OF MAN-MADE THUNDER
REVERBERATING
THROUGH THE HILLS? OR
THE SMELL OF FRESHLY
CHURNED SOIL?

IS IT THE METALLIC TASTE
OF ADRENALINE OR
THE FEELING OF DEFYING
GRAVITY? WE BELIEVE
IT'S MORE THAN THAT.
IT'S THE EMOTION. THE
BOND BETWEEN MAN AND
MACHINE.

THERE IS AN INTUITION
THAT GUIDES US. UNLIKE
THE OTHER SENSES
WHICH INVOKE PHYSICAL
SENSATIONS, OURS IS ONE
THAT COMES FROM THE
SOUL – A TRUST SHARED
BETWEEN A PERCEIVED
MECHANICAL SOUL AND A
HUMAN HEARTBEAT.

WE RIDE MOTOCROSS

Motocross riders are subject to an ever-changing environment. Every lap becomes a new negotiation of shifting and deteriorating terrain to which the rider must instinctively acclimatize. Husqvarna Motorcycles has developed a range of motocross apparel that adapts to rider inputs and the challenging dynamics of the track.

MOTO-9 FLEX RAILED HELMET

- Tri-Matrix (carbon, Kevlar, fiberglass) shell
- Flex Energy Management interior liner
- Lightweight Carbon Composite Shell construction
- Exclusive Magnefusion™ Emergency Removal System (M.E.R.S.)
- Magnefusion™ removable cheek pads
- Quick-Flip visor screws for easy adjustment
- Magnefusion™ magnetic chin strap holder
- Padded chin-strap with D-ring closure
- Velocity Flow Ventilation System™ for maximum cooling
- Flying Bridge Visor™ with ventilation holes
- XT-2® Extended Wear, removable and washable interior liner
- EPS-lined chin area
- Integrated ventilated roost guard
- 1,400 (±50 g)
- Made exclusively for Husqvarna Motorcycles by BELL

MATERIAL

RAILED JERSEY

The **RAILED JERSEY** affords motocross riders with unrivaled freedom of movement, thanks to raglan-styled sleeves and a relaxed fit. Made from lightweight and breathable 100% polyester, riders are also kept cool and free from moisture build-up thanks to an intelligent material mix. An elastic Lycra® collar and cuffs offer comfort and functionality, while UV-resistant and fade-proof prints provide longevity throughout the season.

- Lightweight, premium MX jersey
- Intelligent material mix for maximum moisture wicking away from the skin
- Raglan-style sleeves for a comfortable fit
- Mesh panels for optimum ventilation
- Elastic Lycra® collar for comfort and functionality
- UV-resistant and fade-proof sublimation prints

RAILED PANTS

Husqvarna Motorcycles has developed the RAILED PANTS with rider intuition in mind. Providing all the benefits a rider expects from premium motocross wear, the pants are lightweight, abrasion-proof, double and triple stitched for added durability. Made from an intelligent mix of materials for extra protection and designed to fit perfectly in all riding positions.

- Extremely lightweight, comfortable premium MX pants
- Taped seams for increased comfort and durability
- Elastic outer material ensures optimum freedom of movement
- Abrasion-proof 330D nylon
- Seat reinforcement in 1000D Cordura®
- Heatproof and abrasion-resistant leather knee reinforcement
- Double and triple-reinforced seams for maximum durability
- Lining with elastic panels for an optimum fit
- Reduced material and design for weight savings and outstanding ergonomic performance
- Loose fitting knee and shin area for knee braces
- Removable foam hip protectors
- Flexible, double waistband adjustment with Velcro™ fastener for optimum fit
- UV-resistant and fade-proof sublimation prints

**BOOTS AND
PROTECTION**

CROSSFIRE 3 SRS BOOTS

The CROSSFIRE 3 SRS BOOTS have been completely redesigned to accommodate different calf sizes and a wider range of knee brace systems. A Dual Flex ankle system also prevents motion beyond anatomical limits, without restricting dexterity for normal shifting and braking. Durability has also been improved, with hardware being used instead of stitching, which means most parts are replaceable, including the soles.

- Top-quality racing boot
- Replaceable shin plate
- Micro-adjustable and replaceable buckle system
- Exclusive and patented flex system with hyper-extension block
- Fully adjustable calf area
- Replaceable metatarsus inserts
- Toe area covered with a plastic reinforcement
- Rigid, shock resistant, anatomically shaped heel cup
- Stitch free, assembled and replaceable boot leg
- Nylon inner sole with removable arch support pad
- Made exclusively for Husqvarna Motorcycles by SIDI

RUTTED VEST

Providing all the high-end features riders need, the RUTTED VEST is designed to ensure comfort, durability and functionality. A neoprene collar serves to improve sealing and comfort, while elasticated panels and drawstrings allow riders to adjust the vest for optimum fitting. The RUTTED VEST also features several external and internal pockets for storage, with an extractable lumbar flap to restrict mud splatter on wet rides.

- Versatile softshell functional vest
- Convenient neoprene collar for improved sealing and comfort
- Elasticated panels in movement-intensive areas for optimum fit
- Elastic drawstring adjustable on both sides
- Several external and internal pockets
- Large cargo pocket on the back
- Foldout mud flap

TECHNICAL FEATURES

FEATURES THAT ENHANCE THE RIDE

BELL FLEX TECHNOLOGY

The three-layer impact liner found in the BELL MOTO-9 FLEX RAILED HELMET is designed to manage the energy from three potential impact scenarios: low, mid and high-speed.

MESH INSERTS

The mesh composition inside the RAILED PANTS increases airflow by maintaining separation between the skin and the remainder of the garment, keeping you cooler all ride long.

MESH LINING

The mesh lining acts as a climate control mechanism for your body by reducing moisture and increasing circulation, making our functional apparel especially comfortable.

VENTILATION AND ABRASION RESISTANCE

Zips on the front and rear of the GOTLAND JACKET, together with the mesh lining on the inside, assist with ventilation. Reinforced Schoeller®-Dynatec forms a highly abrasion-proof protection area on the elbows, ensuring a well-protected and cooler ride.

PREMIUM TECHNOLOGY FOR KIDS

Husqvarna Motorcycles' youngest riders benefit from the same premium technology as the adults, such as the goggles and gloves exclusively made by 100 % and fully equipped with all sorts of innovative technology.
